### Terms and Conditions

\*Important: The proposed price is based on all work listed above.

Choosing portions of proposed work could require revised pricing. All pricing is good for 30 days.

### PAYMENT TERMS: DUE UPON COMPLETION

All valuables must be removed from any area that ASF needs to gain access to. ASF will be adding \$50.00 per hour to any job that is not ready for the spray foam crew due to having to remove articles.

### Payment Terms

PAYMENT IS DUE THE DAY JOB IS COMPLETED - Atlantic Spray Foam does not require a deposit before the job has started. ASF does require 100% payment at the end of last day foam fiberglass crew is onsite. ASF does accept all major credit cards. There is a 3.3% credit card processing fee added. If payment cannot be paid on final day then a 50% deposit will be required before the job has started. Additionally, Atlantic Spray Foam recommends contacting a termite company, prior to the spray.

**Due to the shortage of spray foam insulation our pricing is only good for 2 weeks from estimate date.**

## ATLANTIC SPRAY FOAM

We would like to take this opportunity to thank you for trusting us to come out and bid on your project. We would also recommend you going to our website at [www.atlanticsprayfoam.net](http://www.atlanticsprayfoam.net) and watch our videos on what to expect and meet our team. Please also take the time to look at some of our past clients testimonials.

If you are ready to schedule, then the next step is to click on the **ESIGN** on your emailed document and this will allow you to accept any options that you may or may not want. Once you complete this task. It will be emailed to the office and ASF will be reaching out to you via email within 24 hours. ASF will be giving you some dates that currently work. ASF will not confirm your dates unless they hear back from you. Please note that ASF will do our best to make sure that the schedule dates don't move. But sometimes our jobs run over due to weather, mechanical failures, change orders, etc. With this in mind, in the event that this happens. ASF will be in contact to let you know of any changes.

We ask that if you have any notes on your proposal that need to be done prior to ASF arrival is complete before arrival. In the event ASF arrives on site and if the job is not ready for our crews we will have to charge a \$500 mobilization fee unless noted on the estimate. Please don't hesitate to reach back out to ASF and schedule another day for your salesperson to come back out and do another walkthrough prior to our crew arrival if you have any concerns.

If ASF is working in your attic we would need to have the water and hvac unit turned off prior to starting work. If we are working in the crawl space we would only need the hvac unit turned off if the ducts are under the home. Both systems can be turned back on at the end of the day.

If we are to schedule our work with other subcontractors, termite company, hvac company, carpenter, or sheet rocker, we would need to have an email created between you, your chosen company and ASF. We do this to properly schedule your project with all parties involved.

Per SPFA no one should be in the home when spray foam is being installed and the house should be vacant for 24 hours to properly ventilate the space.

ASF recommends allowing Elm Energy Group to test your home after spray foam is applied to the attic. You can contact EEG directly @ 843-296-3715 or [jamie@elmenergygroup.com](mailto:jamie@elmenergygroup.com)

If you have any questions about this proposal please feel free to call or email your salesperson or the office @ 843-707-4066 or [tj@atlanticsprayfoam.net](mailto:tj@atlanticsprayfoam.net)

Sincerely,  
Atlantic Spray Foam  
2050 Old Bailey's Road  
Ridgeland, SC 29936
